	INTERNATIONAL PRELIMINARY EXAMINATION REPORT	International application No. PCT/US03/41044
I.	Basis of the report	
1.	With regard to the elements of the international application:*	
	the international application as originally filed.	

1 4.	W III	regard to the elements of the international application:*
		the international application as originally filed.
	$\boxtimes$	the description:
1		pages 1-13 as originally filed
		pages NONE , filed with the demand
	<u>- 7</u>	pages NONE, filed with the letter of
	$\boxtimes$	the claims:
Ι.	-	pages 14-20, as originally filed
		pages NONE, as amended (together with any statement) under Article 19
		pages NONE, filed with the demand
		pages NONE, filed with the letter of
	M	the drawings:
		pages 1-4 , as originally filed
		pages NONE , filed with the demand
		pages NONE, filed with the letter of
	Ш	the sequence listing part of the description:
ı		pages NONE , as originally filed
		pages NONE , filed with the demand
_		pages NONE, filed with the letter of
2.	With	regard to the language, all the elements marked above were available or furnished to this Authority in the
,	langu Thac	lage in which the international application was filed, unless otherwise indicated under this item.
i		e elements were available or furnished to this Authority in the following language which is:
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).
		the language of publication of the international application (under Rule 48.3(b)).
ı		the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).
3. i	With	regard to any nucleotide and/or amino acid sequence disclosed in the international application, the national preliminary examination was carried out on the basis of the sequence listing:
ļ		contained in the international application in printed form.
Į		filed together with the international application in computer readable form.
ļ	_	furnished subsequently to this Authority in written form.
į		furnished subsequently to this Authority in computer readable form.
1		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
[	$\exists \ $	The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
4. [	<b>」</b> ·	The amendments have resulted in the cancellation of:
		the description, pages NONE
		the claims, Nos. NONE
_	_	the drawings, sheets/fig NONE
5. [	] :	This report has been established as if (some of) the amendments had not been made, since they have been considered to go
-	_ t	beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
mis r	eplace report	ement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in t as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). placement sheet containing such amendments must be referred to under item 1 and annexed to this report.
• • • •	., . op	racomon sheet conduming such differents must be rejerred to under tem 1 and annexed to this report.

International approxion No. PCT/US03/41044

	Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement
1.	STATEMENT

Novelty (N)	Claims 1-19	YES
	Claims NONE	NO
Inventive Step (IS)	Claims 1-19	YES
•	Claims NONE	NO
Industrial Applicability (IA)	Claims 1-19	YES
	Claims NONE	NO

## 2. CITATIONS AND EXPLANATIONS

Claims 1-19 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest an apparatus and method for cutting bone, the apparatus and method having all the limitations as recited in the claims. For example, with respect to claim 1, the prior art does not teach or suggest an apparatus for cutting bone having, in combination; a tubular portion, an articulatable head section with at least one stop surface and a cutting edge projecting from the stop surface, and means for articulating the head section relative to the tubular portion.

Claims 1-19 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
